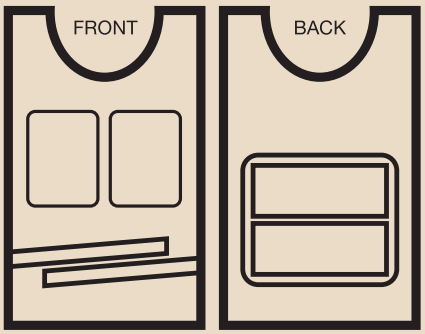
READY HEAT

HEATED VEST

Overhead Style

HEATS IN MINUTES ▪ LASTS UP TO 8 HOURS ▪ ADJUSTABLE ▪ 1 SIZE FITS ALL

Self Warming ▪ 5 Year Shelf Life ▪ Lightweight



INSTRUCTIONS:

1. Do not open the package until ready to use as heating will start automatically.
2. Remove vest from package and expose to air.
3. Place vest over your head and on top of your base layer of clothing. Do not place directly on exposed skin.
4. Adjust the hook and loop straps for comfort.
5. Vest will start to heat immediately. Allow 10-15 minutes to reach operating temperature.
6. After use, dispose of vest with regular waste. All natural ingredients; will not harm environment.

WARNINGS:

Failure to follow these precautions may result in serious burns or other serious injuries.

1. **DO NOT place on exposed skin.**
2. Careful supervision is required for use with the elderly, people with sensitive skin and those who can't feel heat or regulate heat. Keep out of reach of children.
3. People with allergies, diabetes, frostbite, scars, open wounds or circulatory problems should consult a physician before using the Ready Heat vest.
4. Remove immediately if vest is too hot or if you feel uncomfortable. Maximum temperate may reach 125°F (52°C). Do not use while sleeping.
5. Do not open the sealed pockets or pouch and do not allow the contents to contact mouth or eyes. If contact with your skin or eyes, wash with clean water. Contents contain iron powder which, if swallowed, can be harmful. If contents are swallowed, immediately call a poison control center.

CONTENTS: Iron powder, water, activated carbon, wood powder, salt
